CALL FOR PAPERS

Workshop on
Causal Machine Learning

January 20-21, 2020
Einstein Congress Centre, St. Gallen, Switzerland

The workshop will bring together researchers who use machine learning methods for drawing causal inferences. We welcome submissions from different fields, such as econometrics, political science, biometrics, computer science, and statistics. We accept applied and theoretical contributions. To promote an in-depth discussion, we plan to assign one hour to each presentation. The workshop includes also poster sessions. The workshop has no registration fee. Lunches and workshop dinner are included. Participants have to cover their own travel and accommodation costs.

Keynote Speakers:

- **Uri Shalit** (Technion - Israel Institute of Technology)

- **Stefan Wager** (Stanford University)

Submissions:
Please send your submission (complete paper preferred, but abstract also possible) to cml.workshop@unisg.ch

Submission Deadline is October 30, 2019

Organisers:
Michael Knaus (michael.knaus@unisg.ch)
Michael Lechner (michael.lechner@unisg.ch)
Anthony Strittmatter (anthony.strittmatter@unisg.ch)

Sponsor:
National Research Programme 75 "Big Data"
